

## Learning More About MyMathLab

There are many resources to help you with MyMathLab.

There are WebEx trainings that you can sign up for and attend via your computer.

<http://mymathlab.com/training> is a listing of the current ones where you can sign up. Note that the list is in reverse of date so the ones coming soon are at the bottom. In particular there is a beginning training on September 9, an intermediate on the 16<sup>th</sup> and another beginning on the 27<sup>th</sup>.

There are many other resources located at <http://mymathlab.com/training.html#>

The “Teaching with MyMathLab Tours” has both general and some topic specific help.

Another very useful link is in the control panel when in MML.
